

Eyewitness Vantage

Officer Worn Video

Vantage offers true HD video, excellent quality low light recording and wireless file transfer to Kustom's new Eyewitness HD in-car system. Available with extended battery for up to 9 hours of record time.

Overview

- Excellent low light performance:
 - Matches what the officer sees
 - Configure with day/night mode for even better low light performance
 - IR LEDs for capturing video in total darkness (Agency configurable)
- Select the resolution/storage combination that is best for your agency: 1080p, 720p/60 fps, 720p/30 fps, D1 (480p/30 fps)
- Simple, glove friendly operation allows officers to focus on important tasks
- Wide-angle done right: 120° - capture details others may miss with minimal distortion
- Docking station for convenient dock-and-go charging
- Non-removable media ensures evidence integrity

**Wireless
trigger and
file transfer**

Preferred Features Made Standard

- Pre-event recording (configurable up to 30 seconds)
- GPS - store coordinates with bookmark, support for mapping and geo-fencing*, synchronized clocks
- Configurable audio mute button if needed to comply with privacy laws
- Bookmark button identifies important events saving time during review

Enhancement Options

- Up to 9 hours record time with extended battery
- Wired or wireless file transfer to Eyewitness HD in-car video system means officers don't have to turn camera in at end of shift*
- Play and bookmark Vantage files in the car
Vantage files also inherit the associated ICV file's stop and hold classifications = no more classifying files back at the station*
- Bi-directional record triggering. EyewitnessHD record activations will trigger Vantage recordings (and vice versa)*
- Peer to peer record triggering – our design limits record activations to paired cameras only. This avoids the unwanted triggering of other cameras that can happen with systems that broadcast a record trigger to any camera within range*
- Automatic file association between Vantage and Eyewitness HD for easier/time-saving search and simultaneous playback*
- Multi-dock for charging, transferring files from multiple cameras

Excellent depth-of-field - objects near and far are crisp and clear

Multiple recording resolutions

Excellent low-light capability

Wireless trigger and file transfer

*Available after Eyewitness HD launch in 2016

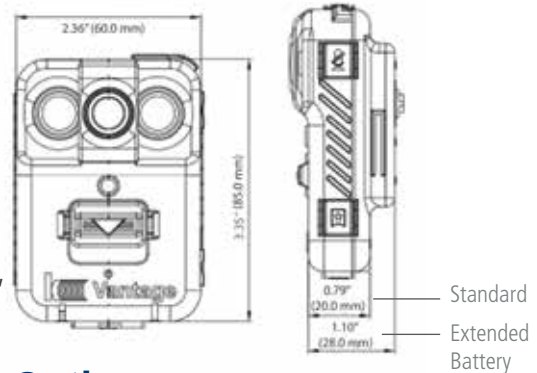

Eyewitness Vantage Officer Worn Video

Specifications

Resolution:	Selectable - 1080p/30 fps, 720p/60 fps, 720p/30 fps, D1 (480p/30 fps)
