

**DESIGNED
FOR
OFFICER
SAFETY**

Built for Corrections. Not adapted from patrol.

A purpose-built platform that protects officers, documents incidents, and streamlines evidence management from facility operations to inmate transport.

THE ARGUS PLATFORM

ARGUS BWC

Body-Worn
Camera

Purpose-built for officer safety and incident documentation in corrections environments.

ARGUS DATA VAULT

Evidence Management Software

Secure, centralize platform to manage, redact, store and share videos from all video sources.

ARGUS TMS

Transport Monitoring System
Coming Soon

Complete video and audio coverage for prisoner transport vehicles.

COUNTY JAILS

SHERIFF'S OFFICES

DETENTION FACILITIES

DESIGNED FOR OFFICER SAFETY

Hot-Swap Battery

Continue recording while replacing the battery. No downtime. No lost footage.

Automatic Incident Activation

Detects intense movement events, falls, physical altercations, and more — and begins recording automatically.

Voice-Activated Recording

Hands-free operation for corrections workflows.

Live Command Monitoring

Supervisors monitor every Argus BWC and Argus TMS in real time.

Low-Light Retina Technology

Clear video in dim corridors and low-light environments.

Rugged and Reliable

IP67 and MIL-STD-810G compliant for the toughest corrections environments.

COMPREHENSIVE EVIDENCE MANAGEMENT

One-Touch AI Redaction

AI detects and redacts faces in seconds. No outside services. No extra fees.

Preserve Original Evidence

Redacted copies are stored separately; originals remain court-admissible.

Unified Platform

Manage Argus BWC and Argus TMS video in one platform.

Secure Evidence Sharing

Expirable links with full audit trail for counsel and oversight.

Cloud or On-Premises

Same features and security on either deployment.

Custom Retention Policies

Meets your agency's chain-of-custody and records requirements.

WHAT FIXED CAMERAS CAN'T DO

Most corrections facilities already have fixed cameras. Here's how the Argus platform fills the gaps.

CAPABILITY	FIXED CAMERAS	ARGUS BWC	ARGUS TMS
Audio Recording	✗ No audio recording	✓ 4-mic audio on every recording	✓ Audio in compartment, cab & exterior
Coverage in Corridors & Cells	✗ Blind spots in corridors & cells	✓ Officer-perspective coverage everywhere	N/A (Facility use not applicable)
Coverage During Transport	✗ No coverage during transport	✓ Activates during transport escorts	✓ Full compartment, cab & exterior coverage
Officer-Perspective Footage	✗ No office-perspective footage	✓ First-person video of every interaction	✓ Cab camera documents every transport run
Field of View & Flexibility	✗ Fixed position—can't follow action	✓ Moves with the officer at all times	✓ Up to 4 camera system for full incident documentation
GPS / Location Data	✗ No GPS or location data	✓ GPS-tagged on every recording	✓ Real-time GPS fleet tracking in Data Vault

ARGUS TRANSPORT MONITORING SYSTEM

Coming Soon

Purpose-configured for prisoner transport vans, buses, and sheriff transport vehicles.

Prisoner Compartment
HD infrared cameras with microphone

Cab Documentation
Officer protection on every transport run

Interior Coverage
Up to 4 camera system for full incident documentation

GPS Fleet Tracking
Real-time location in Argus Data Vault

Ruggedized Housing
Built for corrections transport environments

Bi-Directional Activation
Argus TMS and officer Argus BWC activate each other

Secure & Encrypted
AES-256 encrypted DVR – 512GB SSD, all files encrypted in transit and at rest

KUSTOM SIGNALS, INC.®

COMMON QUESTIONS

We already have fixed cameras.

Argus BWC adds audio that fixed cameras can't capture, and covers blind spots fixed cameras miss—cell doorways, escort corridors, transport loading areas. Argus Data Vault integrates both sources in one unified platform for complete incident reconstruction.

We're already evaluating another vendor.

Many platforms in this space are built for patrol agencies and bundled into long-term contracts that were never designed for corrections. Argus delivers corrections-native workflows—built around facility operations, not adapted from them—without multi-year pricing lock-in.

Officers won't want to wear a camera.

Officers who wear cameras gain protection against unfounded complaints and false accusations—the footage speaks for them. With hot-swap battery technology and automatic activation, the Argus BWC adds a layer of accountability that works for the officer, not just the facility.
